A PUZZLE GAME TO EXERCISE YOUR BRAIN

GAME MANUAL

- This game entails moving all the blocks to clear the surface within a set limit of time. If you fail to complete this task, the game ends.

- Move the blocks to the right and left with Buttons A and JoyStick. If you combine the same patterns they are cleared.
- Blocks which get in the way can be destroyed with bombs that move up down left and right. The number of bombs is limited.
- If you make a bad move, you can return to the original starting point by pressing Button B. The number of times is limited.

SURFACE SELECTION

- After starting a game, you can choose from six areas in Level 1, Level 2 or Level 3.
- As soon as completed of four surfaces, you move up to the next level. Choose the direction to proceed from two areas.
- From Level 8 on, it becomes endless and you do not select the surface. From here on, the time limit probably gets shorter.
